PROJECTS (ALL AVAILABLE ON GITHUB)

First-temp «Introduction to Industrial Programming» projects (I. Dedinsky)

First-temp Huawei projects

- Solving the quadratic equation (industrial performing) - [LINK](#) (alexzhelyapov1/QuadraticEquation)
- Onegin (working with text in c) - [LINK](#) (alexzhelyapov1/Onegin)
- Stack (with data secure) - [LINK](#) (alexzhelyapov1/stack_2022)

Other projects

- Square of complex figure (C + ASM inserts) with full analysis and report REPORT.docx: [LINK](#) (alexzhelyapov1/square_of_complex_figure)
- Hidden Screenshoter for Windows with github-CI pipeline and InnoSetup: [LINK](#) (alexzhelyapov1/Screenshoter)

ABOUT ME

I am:

- The winner of the all-Russian soft-skills contest
- Passionate about programming in any field and strive for a complete understanding at all levels.
- A neat person, always aiming to write code in a way that I, at the very least, will be able to open it later on and immediately grasp what is happening.
